

# Intelligent Vanity Co.

**Our moto-redefine your space with our unique and stylish dressing table.**

JEOPARDY Round

## Plan of Actions:

- 1. Develop a crisis management plan:** We will try to bring a comprehensive crisis management plan that outlines the steps to be taken in the event of a crisis. This plan includes a clear communication strategy, roles and responsibilities of team members, and steps to minimize the impact of the crisis.
- 2. Clear Communicate with the firm in thailand:** We will try to contact the firm and try to analyze the situation whether it is critical. Identify the most needed raw material that will now not be able to reach till here. We will make a list of all the raw materials that we consider to make our product.
- 3. Find alternatives of the raw material:** With the list of raw materials we will try to find the next closest raw materials that we can find that similar companies are selling.
- 4. Talk with Stakeholders:** We will try to bring a meeting with the stakeholders and manage more funds so that the inventory does not and our company does not go into losses. Talk with other companies that can help provide good sustainable wood and other raw materials.
- 5. Have a talk with other suppliers:** Try to have a meeting with other suppliers to help us provide similar types and structure of raw materials.
- 6. Replan your production Process and Implement testing:** We will have to replan our production process according to the new raw material which will align to the needs of the customer. Apply testing of the product to improve the efficiency.
